Why choose for Lithuanian products?

The Lithuanian chemical industry is diverse and characterized by deep sector specialization, providing products for a wide range of sectors, such as fertilizers, industrial paints and chemicals, cosmetics and household chemicals. The Lithuanian chemical industry is persistently showing higher productivity growth rates than other sectors. This is reflected by high levels of incoming Foreign Direct Investment and the incorporation of Lithuanian companies in international networks.

Lithuania has an established position in the global market for fertilizers with a share of 2.14%. Using the most modern equipment, Lithuanian manufacturers are able to provide high quality fertilizers at competitive prices.

Other sectors in which Lithuanian chemical companies are successfully exporting are inorganic chemicals, industrial paints, perfumery and cosmetics and household chemical appliances.

Type of activities

Production of inorganic chemicals, organic chemicals, paints, fertilizers, perfumery, cosmetics, soap, shampoo, household chemical appliances.

Main exporting companies

AB Achema, AB Lifosa, UAB Arvi Fertis, UAB Koslita, UAB BIOD.
