Why choose for Lithuanian products?

The Lithuanian furniture industry has a deep-rooted tradition in manufacturing high quality products at competitive prices. Lithuanian companies offer a diversified product mix ranging from classic robust designs to contemporary design furniture for kitchen, living room, bedroom and office furnishing.

Lithuania's abundance of forests provide manufacturers with high-quality sustainable wooden raw materials, while plastics, metals and textiles are produced at competitive prices as well. Lithuanian furniture manufacturers use the highest design standards and quality requirements and sustainability is

guaranteed by raw materials with the FSC label. The use of modern technologies and innovative business solutions due to expertise in supply chain and strategic management gives Lithuanian furniture products an attractive price-quality ratio.

Besides producing for own furniture brands, such as Narbutas and Lauksva, Lithuanian furniture manufacturers are producing for major international brands such as IKEA and ChristianHarold. Lithuanian furniture manufacturers are flexible and able to fulfill small and non-standard orders. Delivery terms are short and freight costs are low, due to Lithuania's advantageous geographic location, well-developed infrastructure and excellent logistics.
